Wzorowo: name derived from words 'wzór' (pattern), 'wzornictwo' (design), and 'wzorzec' (model)... To a large extent the word 'Wzorowo' refers to PRP (People's Republic of Poland) motif of a badge awarded to exceptional student for his correctness (in the meaning of obedience to socialistic regime) and above-averageness. Distinguishing with badges was typical phenomenon in Poland; the phenomenon that determinates our roots and identity. We do not want to generate or copy any schemes. Despite of the simplicity of forms, which dominate in our designs, just the details make the general perception of an object doubtful. Our artworks often agitate, prompt to think, and intrigue the audience.
